

Hello BTCR Members and Doggies!!

The BTCR Fun Day is just about here! Please join us on Sunday June 28th at John Swett Elementary School in Martinez, Ca.

Address: 4955 Alhambra Valley Road
Martinez, Ca.

From Sacto area or Napa :

From Hwy I-80 Take Hwy I-680 SOUTH to Hwy 4.

Take Hwy 4 WEST to Alhambra Ave where you turn SOUTH or left

Take Alhambra Ave to Alhambra Valley Rd where you turn RIGHT .Follow Alhambra Valley Rd to the school which is on the left. Look for the BTCR sign!

From SF or Oakland

Take Hwy I-80 to Hwy 4 and proceed EAST to Alhambra Ave. Then proceed as above.

From South Bay:

Take Hwy I-680 to Hwy 4 WEST and proceed as above.

The school grounds will be open at 9AM for setup. We will run the Lure Coursing as soon as it is set up (approx 9:30AM)

After lure coursing (and the dogs settle down!) we will have the CGC Testing. Please see the attached note regarding CGC test requirements etc. Please note that you must send your entry to Connie Bartlett by June 22nd with the test fee. The test takes approx 10-15 minutes per dog.

Sometime after we get CGC up and running we will start the Earthdog Demo and the Rally Demo. These will run sequentially as far as possible but likely will have some overlap.

Lunch is a potluck. Last names A-K, please bring a main course. Last names L-Z please bring a side dish or dessert. The club will provide drinks, plates etc.

After a very informal and relaxing lunch we will have Diving for Hot Dogs, Find the Treat (shell game for dogs), Biggest Teeth, Longest Tail and BT Singing. Somewhere in here I will have someone take a group picture!!

Clean-up begins no later than 2:45 PM and we will be done by 3 PM.

Please bring X-pens or crates WITH SHADE (just in case!) and leashes for your dogs!! Please clean up after your dogs. While there is some limited amount of seating at the school, you might want to bring chairs for yourselves.

We're gonna have a great time!!

Tim Carey & Connie Bartlett
Fun Day Co-Chairs

CGC Test Requirements & Info

The 10 steps below are to familiarize teams with the 10 Canine Good Citizen test stations for the AKC CGC test. Please know/bring your dogs registration number, PAL or ILP number to the test and a small brush for your dog. I will give a brief orientation and tips regarding stations for the group & teams before we test.

Limit: 15 dogs

Fee: \$20.00 per dog.

Make your checks out & mail by June 22nd to:

Connie Bartlett

P.O. Box 5955 Petaluma, Ca. 94955.

There will be no refund for dogs who do not show up to test, for cancellations of any kind, or dogs who fail the test. Mail early to reserve your test spot.

A official Canine Good Citizen AKC blue rosette ribbon, and official form will be provided to each team who passes the CGC test.

If you have any questions regarding the test, please reach Connie directly. Thank you & Good luck!

Connie Bartlett

Test 1: Accepting a friendly stranger

This test demonstrates that the dog will allow a friendly stranger to approach it and speak to the handler in a natural, everyday situation. The evaluator walks up to the dog and handler and greets the handler in a friendly manner, ignoring the dog. The evaluator and handler shake hands and exchange pleasantries. The dog must show no sign of resentment or shyness, and must not break position or try to go to the evaluator.

Test 2: Sitting politely for petting

This test demonstrates that the dog will allow a friendly stranger to touch it while it is out with its handler. With the dog sitting at the handler's side, to begin the exercise, the evaluator pets the dog on the head and body. The handler may talk to his or her dog throughout the exercise. The dog may stand in place as it is petted. The dog must not show shyness or resentment.

Test 3: Appearance and grooming

This practical test demonstrates that the dog will welcome being groomed and examined and will permit someone, such as a veterinarian, groomer or friend of the owner, to do so. It also demonstrates the owner's care, concern and sense of responsibility. The evaluator inspects the dog to determine if it is clean and groomed. The dog must appear to be in healthy condition (i.e., proper weight, clean, healthy and alert). The handler should supply the comb or brush commonly used on the dog. The evaluator then softly combs or brushes the dog, and in a natural manner, lightly examines the ears and gently picks up each front foot. It is not necessary for the dog to hold a specific position during the examination, and the handler may talk to the dog, praise it and give

encouragement throughout.

Test 4: Out for a walk (walking on a loose lead)

This test demonstrates that the handler is in control of the dog. The dog may be on either side of the handler. The dog's position should leave no doubt that the dog is attentive to the handler and is responding to the handler's movements and changes of direction. The dog need not be perfectly aligned with the handler and need not sit when the handler stops. The evaluator may use a pre-plotted course or may direct the handler/dog team by issuing instructions or commands. In either case, there should be a right turn, left turn, and an about turn with at least one stop in between and another at the end. The handler may talk to the dog along the way, praise the dog, or give commands in a normal tone of voice. The handler may sit the dog at the halts if desired.

Test 5: Walking through a crowd

This test demonstrates that the dog can move about politely in pedestrian traffic and is under control in public places. The dog and handler walk around and pass close to several people (at least three). The dog may show some interest in the strangers but should continue to walk with the handler, without evidence of over-exuberance, shyness or resentment. The handler may talk to the dog and encourage or praise the dog throughout the test. The dog should not jump on people in the crowd or strain on the leash.

Test 6: Sit and down on command and Staying in place

This test demonstrates that the dog has training, will respond to the handler's commands to sit and down and will remain in the place commanded by the handler (sit or down position, whichever the handler prefers). The dog must do sit AND down on command, then the owner chooses the position for leaving the dog in the stay. Prior to this test, the dog's leash is replaced with a line 20 feet long. The handler may take a reasonable amount of time and use more than one command to get the dog to sit and then down. The evaluator must determine if the dog has responded to the handler's commands. The handler may not force the dog into position but may touch the dog to offer gentle guidance. When instructed by the evaluator, the handler tells the dog to stay and walks forward the length of the line, turns and returns to the dog at a natural pace. The dog must remain in the place in which it was left (it may change position) until the evaluator instructs the handler to release the dog. The dog may be released from the front or the side.

Test 7: Coming when called

This test demonstrates that the dog will come when called by the handler. The handler will walk 10 feet from the dog, turn to face the dog, and call the dog. The handler may use encouragement to get the dog to come. Handlers may choose to tell dogs to "stay" or "wait" or they may simply walk away, giving no instructions to the dog.

Test 8: Reaction to another dog

This test demonstrates that the dog can behave politely around other dogs. Two handlers and their dogs approach each other from a distance of about 20 feet, stop, shake hands and exchange pleasantries, and continue on for about 10 feet. The dogs should show no more than casual interest in each other. Neither dog should go to the other dog or its handler.

Test 9: Reaction to distraction

This test demonstrates that the dog is confident at all times when faced with common distracting situations. The evaluator will select and present two distractions. Examples of distractions include dropping a chair, rolling a crate dolly past the dog, having a jogger run in front of the dog, or dropping a crutch or cane. The dog may express natural

interest and curiosity and/or may appear slightly startled but should not panic, try to run away, show aggressiveness, or bark. The handler may talk to the dog and encourage or praise it throughout the exercise.

Test 10: Supervised separation

This test demonstrates that a dog can be left with a trusted person, if necessary, and will maintain training and good manners. Evaluators are encouraged to say something like, "Would you like me to watch your dog?" and then take hold of the dog's leash. The owner will go out of sight for three minutes. The dog does not have to stay in position but should not continually bark, whine, or pace unnecessarily, or show anything stronger than mild agitation or nervousness. Evaluators may talk to the dog but should not engage in excessive talking, petting, or management attempts (e.g., "there, there, it's alright").

Equipment

All tests must be performed on leash. Dogs should wear well-fitting buckle or slip collars made of leather, fabric, or chain. Special training collars such as pinch collars, head halters, etc. are not permitted in the CGC test. We recognize that special training collars may be very useful tools for beginning dog trainers, however, we feel that dogs are ready to take the CGC test at the point at which they are transitioned to regular collars.

The evaluator supplies a 20-foot lead for the test. The owner/handler should bring the dog's brush or comb to the test.

Encouragement

Owners/handlers may use praise and encouragement throughout the test. The owner may pet the dog between exercises. Food and treats are not permitted during testing, nor is the use of toys, squeaky toys, etc. to get the dog to do something. We recognize that food and toys may provide valuable reinforcement or encouragement during the training process but these items should not be used during the test.

Failures - Dismissals

Any dog that eliminates during testing must be marked failed. The only exception to this rule is that elimination is allowable in test Item 10, but only when test Item 10 is held outdoors.

Any dog that growls, snaps, bites, attacks, or attempts to attack a person or another dog is not a good citizen and must be dismissed from the test.
